FOR A PURE BALLOT

The Republican and Democratic Committees Issue a Manifesto

AGAINST THE USE OF MONEY

Prosecuting Attorney Wheeler is Asked To Join In The Effort To Prevent Unlawful Corruption of Voters.

The following signed agreement is in the interest of a pure ballot and will receive the hearty approval of all parties. The agreement is as follows:

Whereas, every thoughtful citizen realizes that in the past the ballot box has been more or less corrupted in Ohio, by methods which we denounce as dangerous to our most sacred institutions. Therefore be it

Resolved, by the executive committee of the Republican and Democratic parties of Coshocton county, in joint meeting assembled, that we will not countenance or authorize the use of money, or valuable things, for the purpose of procuring votes for or against any candidate named on the ballot voted at the election on Tuesday, November 4, 1902; that no money or other valuable thing shall by our authority or knowledge be used for the purpose of influencing any voter to remain away from said election; and be it further

Resolved, That we will use our individual influence and official capacity to secure and promote a pure ballot and to carry out all the provisions of the agreement to insure a fair election; and be it further

Resolved That we hold ourselves in readiness to aid and assist in the indictment and prosecution of any and all persons offering money or other valuable thing, for their votes, and any and all violators of the present election laws, regardless of their social, official or political positions; and be it further

Resolved, That we earnestly call upon all persons to unite with us in faithfully carrying out the agreement entered into by the committees representing the two parties.

In witness whereof, we have hereunto set our hands this 13th day of October, A. D., 1902.

In behalf of the Democratic executive committee for Coshocton county:

J. C. FISHER, Chairman. E. F. STOCKUM, Secretary.

In behalf of the Republican executive committee for Coshocton county.

GEORGE A. HAY, Chairman. L. T. JUDD, Secretary.

COSHOCTON, Oct. 13, 1902.

T. H. Wheeler,
Prosecuting Attorney for Coshocton County, Coshocton, O.

Dear Sir:

At a meeting of the Republican and Democratic executive committees, recently, an agreement was entered into govering the use of money and other valuable things in the election to be held on November 4, 1902.

We herewith hand you a copy of said agreement, and respectfully ask that you assure us in an open letter of your co-operation in making it effective.

Very respectfully,
GEORGE A. HAY,
Chairman Republican Executive Committee.

J. C. FISHER,
Chairman Democratic Executive Committee.

GEORGE A. HAY, Chairman Republican Executive Committee.
J. C. FISHER, Chairman Democratic Executive Committee.
Coshocton, Ohio.

GENTLEMEN—I am just in receipt of your joint letter of 13th day of October, 1902, enclosing copy of an agreement entered into between your two committees on the 13th day of Oct., 1902, in reference to the use of money and other valuable things in the election to be held on November 4, 1902.

The sentiment expressed in this joint resolution should meet the hearty approval of every good citizen. It is the duty of all citizens, and especially of all officers, to heartily cooperate in obtaining a pure, free and secret expression of the sentiments of all voters on election day.

I shall take pleasure in lending my assistance, both personal and official, to aid you in obtaining the object set forth in that resolution, and this without any respect to personal, social, official or political positions.

Very respectfully,
T. H. WHEELER,
Prosecuting Attorney for Coshocton County.

OUR CANDIDATE FOR CONGRESS.

WILLIAM BROCK STEVENS.

From the Uhrichsville Chronicle published at his home, we glean the following interesting facts concerning our gallant young candidate for congress:

Over in Union township, Tuscarawas county, O., a year after the close of the civil war, was born a boy who was given the name of William Brock Stevens. His father, Thomas M. Stevens, was a farmer and an ordained minister of the gospel in the M. E. church. His mother, from whom he derived the second part of his name, was Miss Nancy Brock before her marriage. Both parents were above the average in intellect and character and both came of families that rated high in the community in which they lived. Honest, industrious and thrifty, they creditably filled their sphere in life and accumulated a goodly share of this world's goods, but never a dirty dollar found lodgment in their hands. It was a family in which Christian influence and the cardinal virtues held sway. The father died some years ago. The mother is an honored and respected resident of Uhrichsville.

Up to the age of 15 young Stevens lived at home and attended the district school. He made rapid advancement and was looked upon as one of the brightest scholars in his district. When he was 15, an age at which most boys are wearing knee pants and as a rule interested in marbles and tops, he obtained a teachers' certificate and held sway over a country school. A year later he entered the Dennison high school from which he graduated with honor. After this he taught district schools at various places, always with success, and was superintendent of the Port Washington village schools where he made the acquaintance of one of Tuscarawas county's loveliest girls, a daughter of Capt. Sam Slade, a gallant officer in the Fifty-first regiment during the civil war, who was revenue assessor after the war and has long been a prominent and respected citizen of this county. Mr. Stevens and Miss Slade were married in 1895. They have one child, a daughter of three years.

For some time Mr. Stevens was a student of the National Normal university at Lebanon, graduating in 1885. He then came to Uhrichsville and read law with T. D. Helea, one of the ablest attorneys in eastern Ohio, and was admitted to the bar in 1889. He has been in successful practice here ever since.

The Republicans of the Seventeenth district made a splendid selection when they named W. B. Stevens as their candidate for congress. A fine lawyer, an eloquent speaker, a logical reasoner, a student of politics, a close observer of current events, an original thinker, a man of force and independence of character, he will make an ideal leader in the contest this fall. A keen analyst when it comes to judging men and measures; quick to see the wrong and prompt to find a remedy; fair in disposition, but in full sympathy with the toiling masses, he would be labor's fervent champion in all cases where right is on its side; and in him the farmer would have an ally on whom he could depend. But he would also be the faithful representative of all the people. Every interest of the district would have his watchful care. The people of his home county know him and believe in W. B. Stevens and will give him a rousing vote.

The Wool Had to Be Weighed.

One of Senator "Billy" Mason's stories is about two of his brothers, Ed and Jim, who dealt in wool at their home in Iowa. Jim went to a revival meeting (unthinkingly, the senator says) and "got religion." In his first burst of enthusiasm he told his brother of how much better he felt since his conversion and urged Ed to come into the fold. The latter pondered gravely for a time and then said: "Ain't any doubt but what religion's a good thing and I'm glad you've got it, Jim, but I guess you better let me alone just now," he continued, reflectively. "You see, Jim, one of us has got to weigh the wool."

One Hundredth Meeting.

Ladies' Aid society, of Keene, will celebrate the anniversary of the one hundredth meeting of their society on Saturday, Oct. 18. Dinner will be served on the lawn of the M. E. church. A history of the society will be given by its first president. A special program has been arranged.

Notice To The Public.

As a rule every business man takes advantage of the market. The undersigned do not intend doing that, but we do think that we are entitled to something at this time. Therefore, we think we do no injustice to the public to advance coal one cent per bushel, namely—lump coal 9 cents, run of mine 7 cents, nut coal 7 cents, steam run of mine 6½ cents, domestic slack 4 cents, steam slack 3½ cents.

A NEW CORPORATION

Coshocton People Prospecting for Oil and Gas in Washington County.

The People's Oil and Gas company is a recently incorporated company, under the laws of Ohio, capitalized at $10,000. The officers are Samuel Siegrist, president; B. N. Kirk, vice president; S. B. Dawson, secretary; U. G. Ralston, treasurer. These with Mr. E. C. Rinner compose the board of directors.

The company has leased between four and five hundred acres of land in Washington county and is now actively engaged in sinking wells on their possessions and the prospects are that they will find some good producers both in oil and gas.

The company is composed entirely of Coshocton people and everybody hopes they will strike the lubricator and the illuminator in paying quantities.

Atend The Horse Show.

Do not miss the horse show tonight. The feature this evening will be the taming of the broncho, from Nellie, O. Professor Beery's exhibition of his ability in subduing the fiery creatures is something truly wonderful. Several well known high bred horses of this city were brought to him last evening and had faults corrected. Everyone interested in good horses should see these performances. They instruct and amuse and are of intense interest. Professor Beery has made himself famous as a horse trainer and has few equals anywhere. He understands horse nature thoroughly and has the faculty of making the horse understand him. The broncho tonight will be great fun. Go and see the show at the horse show tent near the corner of Third and Walnut. Admission 10 cents.

The Destructive Flames.

Miss Jessie C. Dorsey, daughter of Mr. and Mrs. Clement Dorsey, of this city, had a most distressing experience recently. She is a teacher in the Girls' Industrial school in Denmark, South Carolina. The buildings are all of pine, a most inflamable material, and one morning about 4 o'clock the inmates were awakened by an alarm of fire and only escaped in their night clothes, having to leave behind everything to be wiped up by the flames.

COMES TO COSHOCTON

Offices of the Ohio Hardware Dealers's Mutual Fire Insurance Company.

GEORGE M. GRAY SECRETARY

A Large Business Already Secured and More Coming in by Every Mail—Something of the Organization.

One of the most recent enterprises with which Coshocton citizens are prominently identified is the Ohio Hardware Dealers' Mutual Fire Insurance company, which was incorporated last week and papers filed with the secretary of state. The company has complied with all the requirements of the insurance commissioner's office and is authorized to do business in Ohio. The directors of the company are Messrs. Geo. M. Gray, Coshocton; H. F. Rohe, Cleveland; G. V. Guyton, Ada; George B. Meyer, Cincinnati and J. P. Duffey, Greenville. The officers of the board are J. P. Duffey, president; Geo. M. Gray, secretary and treasurer; the offices of the company will be located in Coshocton with Secretary Gray and a corps of clerks and experienced insurance men in charge.

The purpose of the company is to furnish fire insurance to the hardware dealers of the state at a cost greatly below the rates of the old line companies and so favorably is the plan accepted, by the dealers of the state, that already over $10,000 has been received in premiums representing more than $1,000,000 insured property; every mail brings new business and the company expects to reach the $1,500,000 by January 1, 1903.

The practicability of such a plan of insurance has been discussed by the members of the hardware dealers' state association at their annual meetings, of which organization Mr. B. W. Ricketts and Mr. Geo. M. Gray, of this city, were original members. Mr. Gray has always been an enthusiastic advocate of this plan of insurance and kept so persistantly at it that at the annual meeting of the state association last January a committee was appointed to take the matter up and perfect the company organization. This committee consisted of J. P. Duffey, of Greenville; G. V. Guyton, Ada; O. M. Scott, Marysville; W. P. Bogardus, Mt. Vernon; H. F. Rohe, Cleveland; Fred Haberman, Marion; George B. Meyer, Cincinnati; C. C. Fouts, Middletown; W. F. Crumerine, Salem; and Geo. M. Gray, Coshocton. This committee with their attorneys, Pomerene & Pomerene, of Coshocton, and Meeker & Gaskill, of Greenville, immediately went to work upon the necessary preliminaries. The result of their labors culminated in the filing of the incorporation papers last week as stated above.

Mr. Gray has been especially active in the matter traveling extensively over the state, calling upon the hardware dealers and interesting them in the plans of the company. The success of the undertaking is largely due to his efforts and practical business methods. The dealers all over the state, are taking hold of the matter in a very gratifying way and the success of the company is already assured. The location of the company's offices here is an important matter for Coshocton and the congratulations of the community are due Mr. Gray for his success in this new enterprise.

PROBABLE FATAL SHOCK.

Fred Smythe, An Electric Lineman, Comes In Contact With a Live Wire.

Fred Smythe, a lineman in the employ of the Merchants' Light, Heat & Power company, while working with the wires this forenoon, on the top of the company's building on North Fourth street, came in contact with a live wire, was shocked senseless and fell off the building to the ground below. He was working on the comb of the roof and when the current touched him he slid down the slate roof about 40 feet and dropped over the eaves to the cinder walk, a distance of 15 feet. His jaw was fractured in two places. Blood issuing from his ears indicates a fracture of the skull which may result in death.

When picked up by the men below one of his gloves was off and it is thought in an unguarded moment he touched the live wire with his ungloved hand. There were 1000 volts of electricity in the wire at the time. This alone, however, would not produce death, but the other injuries probably will. Dr. Marshall, who was summoned, stated to the AGE reporter that the chances are against him. Dr. Marshall was assisted by Dr. Barcroft. Mr. Smith is a married man, and his home is in Newcomerstown. He was carried in an unconscious condition to the home of John Struble on Fourth street. He is now conscious but suffering terribly. His wife was telegraphed for and arrived this afternoon and is now at the bedside of her husband.

Will Move to Canton.

Samuel Boyd, who has lived for several years in Avondale has bought property in Canton and will move his family there this week. Mr. and Mrs. Lee Boyd who were recently married will occupy the old home place at Avondale.

Death of Mrs. Henry.

Cards have been received by friends here announcing the death of Mrs. Henry, wife of Professor Henry, a former superintendent of the public schools in this city. Mrs. Henry was a charming woman possessing intelligence and refinement far above the ordinary. Her many friends in this city will learn with deep sorrow and regret of her death.

President Roosevelt is beginning to hit pay dirt in his efforts to settle the coal strike.

There are some things the Democratic leaders have yet to learn and one is how to get in out of the rain.

The Republicans are coming down the homestretch with a swing that indicates a grand victory all along the line.

Three weeks more of campaigning, then the voting, after which the Tom Johnson show will go into permanent retirement.

A disputant in a labor controversy who is willing to submit his case to arbitration must be supposed to have a more just cause than one who balks at the proposition.

The bank deposits of the country increased $3,338,205,696 in four years from 1897 to 1901. This is an indication of prosperity, under Republican administration which should not be lost sight of.

The highest membership of the Grand Army of the Republic was 490,488, in 1890. The number of members in 1901 was 238,745, showing an average annual loss of 14,574. Every year a full division passes over to the majority.

Daniel Drew, once the wealthiest operator in Wall Street, is said to have originated the expression "watered stock." In his younger days he was a drover and it used to be said that before feeding his cattle to market he would drive them into a pond and then sell them as the water they had taken in would weigh. Hence the expression which describes the expansion of speculative stock beyond its actual value.

Dr. Adolpo Lorenz a celebrated surgeon who came from Berlin to operate upon the daughter of J. Ogden Armour, of Chicago, for dislocation of the hip, performed his work in two hours Sunday morning. It is said his fee for the operation was $150,000. Monday he was to operate upon four poor children in Chicago and charge nothing for his services. He will remain ten days in Chicago, make a trip to California, and return in one month to examine his little patients —Mansfield News.

Swiss Coal Trade Lost.

Geneva, Oct. 14.—The crisis in the coal strike in America is threatening Americans with the loss of their Swiss coal trade which they obtained after a severe struggle and great expense as a result of the exhaustion of American stocks of coal in Europe and the consequent rise in prices. Germans are now coming in Switzerland large orders for Westphalian coal and they are likely to recapture the trade from the American dealers. The increase in the price of coal is causing great distress in Switzerland.

RESULT OF A MIDNIGHT MEET

In Which President Roosevelt and Pierpont Morgan Participate.

COMMISSION OF FIVE SUGGESTED.

To Which Shall Be Referred All Questions Involved In the Unhappy Anthracite Dispute—Several Propositions Attached, but It Is Believed the Miners Will Fall In Line—Public Statement Issued by the Coal Barons—Story of the Conference at the White House.

Washington, Oct. 14.—As the result of a midnight conference between President Roosevelt, Secretary Root and J. Pierpont Morgan and the latter's business associate Robert Bacon a statement was given out by Secretary Cortelyou in which the presidents of the anthracite carrying railroads and miners will name a commission of five persons to settle the differences and settle the coal strike in the anthracite coal fields of Pennsylvania. The proposition is believed by the administration to be satisfactory to the miners, as it covers the proposition made by President Mitchell of the United Mine Workers' union, with additional conditions which it is believed the miners will accept. The statement is as follows:

"The operators have agreed to the appointment of a commission, to be appointed by the president of the

SECRETARY OF WAR ROOT.

United States, to whom shall be referred all questions at issue between the companies and their own employes, whether they belong to a union or not, and the decision of the commission shall be accepted by the operators. The commission is to consist of an army or navy engineer officer, an expert mining engineer not connected with the coal-mining properties, one of the judges of the United States court of the eastern district of Pennsylvania, a man of prominence eminent as a sociologist, and a man who by active participation in mining and selling coal is familiar with the practical and commercial features of the business. The operators also make a part of their proposition that the miners shall return to work as soon as the commission is constituted and cease all interference with non-union men. The commission is to name a date when its finding shall be operative and to govern conditions of employment between the companies and their employes for at least three years.

"The proposition of the coal operators was a result of the visit of Secretary Root to New York and his conference with Mr. Morgan on Saturday. Mr. Morgan at that time expressed a great interest in the situation and a desire to bring about an adjustment if possible. Following his talk with Secretary Root there was a conference in New York at which the proposition of the coal operators was agreed to, and Mr. Morgan was delegated to bring it to the president. In view of that such would be the course of course and the best way of presenting the offer of settlement. The next move will be the presentation of the matter to the miners, and it is probable that President Mitchell will be invited to Washington to confer with the president. It is believed here that he will at once accept the proposition.

"The issuance of the statement followed a conference at the White House which assembled very quickly after Mr. Morgan and his partner, Robert Bacon, had reached Washington on a flying trip from New York. Mr. Morgan and Mr. Bacon arrived in Washington at 10 o'clock in a special car and drove at once to the Arlington hotel. They met Secretary Root and the three gentlemen walked over to the White House and were shown at once to the president's room. They remained with the president for two hours of 12 o'clock.

What the Operators Say.

A public statement was issued by the operators in which they say:

"The coal companies realize that the urgent need of coal and the appearance of an inadequate supply for the approaching winter calls for an earnest effort to reach a practical conclusion which will result in an increased supply. The presidents of the companies decide to make every effort to that end which does not involve the abandonment of their interests and the rights of the men working and seeking work in the mines. This responsibility they must bear and meet as best they can.

"They therefore restate their position: That they are not discriminating against the United Mine Workers but they insist that the miners' union shall not discriminate against or refuse to work with non-union men, that there shall be no restriction or deterioration in quantity of coal, and that owing to the varying physical conditions of the anthracite mines, each colliery is a problem by itself.

"We suggest a commission, to be appointed by the president of the United States (if he is willing to perform that public service), to whom shall be referred all questions at issue between the respective companies and their own employes, whether they belong to a union or not, but decision of that commission shall be accepted by us."

Conflicting Claims.

Wilkesbarre, Pa., Oct. 14.—Reports received here from the coal companies all over the region are to the effect that at least 12 collieries and four washeries started operations. President Mitchell asserted that reportes received by him from his lieutenants in the field showed that fewer men were at work than last week. It is quite evident that extra efforts are being made on both sides to save an embargo. The soldiers of the Third brigade were sent into the outlying mining towns in this region long before starting up time to patrol the roads leading to the collieries. In some places soldiers were stationed in twos and threes along the roads and on street corners, but they were not compelled to rescue any one from strikers.

Coal Barges Move.

Pittsburg, Oct. 14.—Sixteen steamboats pushing 270 barges and 24 coal boats left Pittsburg for Cincinnati and Louisville. The total number of bushels shipped was 7,500,000. About 2,000,000 bushels additional is expected to go out at once.

A TYPICAL SOUTH AFRICAN STORE

O. R. Larson, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about 25 miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of 30 mile, to many of whom I have supplied Chamberlain's Remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps 60. Of these within the past twelve months, no less than 14 have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by C. E. Anderson, Forbes block.

FROM AMBUSH

A Kentucky Judge Is Shot and Mortally Wounded.

Beattyville, Ky., Oct. 14.—Judge Allen Hyden, county judge of Owsley county, was shot from ambush about daylight. Judge Hyden first made the race for the nomination on the regular Republican ticket and was defeated. He then ran in the regular election on the fusion ticket, and the election resulted in a contest, which was lately decided by the court of appeals in favor of Hyden and the fusion ticket. During the contention there was much bitter feeling and fears were entertained of trouble. Deputy Sheriff Wilson of Owsley county reached here and telegraphed for bloodhounds. The judge was shot once in the back and his hip was broken by a second bullet.

Mutiny and Bloody Fight.

San Francisco, Oct. 14.—The little steamer Dos Hermanos was sent out on a cruise among some of the southern islands by a trading firm a few days before the transport Sherman left Manilla. The steamer reached Virac and anchored in the harbor there. Thirty of the crew armed with knives, hatchets and clubs, attacked the officers and demanded the money that was on the vessel. A terrible battle ensued, the noise of which brought soldiers from an adjacent barracks and the mutinous crew was soon subdued. Several of the mutineers were killed in the fight and the remainder were arrested, charged with mutiny and piracy.

Joe Gans Won.

Buffalo, Oct. 14.— Joe Gans, the lightweight champion, had no trouble in disposing of Kid McPartland before the International club at Fort Erie, Ont., knocking the New Yorker out after 2 minutes and 25 seconds of fighting in the fifth round. The blow that did the business was a left-hand hook to the pit of the stomach, the same blow with which McPartland has won so many of his fights. McPartland writhed on the floor while Charlie White counted the 10 seconds, but a few seconds later he was fully recovered.

Soldier Held.

Shenandoah, Pa., Oct. 14.—The coroner's jury in the case of William Durham, who was shot and killed on Wednesday night last by Private Arthur Wadsworth of the Eighteenth regiment, national guard, returned a verdict placing the responsibility for the death upon Wadsworth, expressing the belief that the shooting was hasty and unjustifiable, and recommending that the matter be placed in the hands of the district attorney for investigation.

Young Man's Awful Crime.

St. Joseph, Mo., Oct. 14.—William Cates, 18, was convicted of murdering his mother, Eliza Cates, three months ago. The boy had been anxious to obtain possession of the property held by his parent, and choked her to death with the expectation that he would not be detected in the crime and would become the principal beneficiary of the estate.

Hit by Lightning.

Beaumont, Tex., Oct. 14.—Lightning tore through the roof of a negro church on Wall street while a funeral was in progress, and killed one man and injured five others. The steeple was completely demolished, and in the panic that ensued the mourners, who were at the bier of the dead man, deserted the corpse, leaving it to the elements.

Vessel Lost.

Victoria, B. C., Oct. 14.—The steamer Venture is a total loss on Tugwell island. The Venture, which has been engaged in the cattle carrying trade to Alaska, was bound down with 12,000 cases of salmon when she was lost.

Rumored Railway Deal.

Clarksburg, W. Va., Oct. 14. — An unverified report states that the Baltimore and Ohio railroad has purchased the Fairmont and Clarksburg Electric Railway company lines. The consideration is said to be $1,250,000.

WEALTHY MAIL CARRIER.

General Castleman's Outfit Will Be the Finest In the Land.

General John Breckinridge Castleman, one of Kentucky's most notable soldiers, politicians, society leaders and breeders of thoroughbred horses, has been awarded a contract to carry the United States mails from Burgin to Pleasant Hill, Mercer county, says a dispatch from Louisville to the New York Herald.

General Castleman's big blue grass farm is located at Pleasant Hill, and he put in a bid for the mail contract in order to have the assurance that he would get his morning papers and letters regularly. He bid high for the contract, but said if it was awarded to him he would have the mails carried in up to date style. The government officials decided to give the general a chance, and he has just received word that he was the successful bidder.

In accordance with his word General Castleman will purchase a handsome coach, provided with electric bells and other modern conveniences. It will be drawn by four snow white Kentucky thoroughbreds, and their harness will be mounted with silver. He will employ a driver, a footman and a trumpeter, and each will be in livery of the latest mode and cut.

General Castleman says he will lose about $1,200 a year on the contract, but he will know that his mail will come regularly and that guests in his country place will have a pleasant journey to his home. His plans will give Uncle Sam the most fashionable mail route service in the country.

SOLDIER BOYS WANT BOOKS

Fighters In Philippines Lonesome For Want of Reading Material.

Books and magazines are wanted by the soldiers in the Philippine Islands, according to Mrs. H. C. Chadbourne of Chicago, who is collecting reading material to send to the Eleventh cavalry, Eleventh infantry and Twenty-seventh infantry.

"I am in receipt of letters in every mail from men and officers in all branches of the United States service in the islands pleading for reading of all kinds to help them forget their isolation," said Mrs. Chadbourne the other day to a reporter of the Chicago News. "If persons who have books, novels and late periodicals or magazines they would like to give will send them to me at 5045 Grand boulevard, I will see that the things are packed and shipped so that they will reach the soldiers about Thanksgiving time."

DEADLOCK BROKEN

In Legislative Conference Committee. Ohio News.

Columbus, O., Oct. 14.—The deadlock in the conference committee was broken by the committee's voting to remove from the municipal code the provision for the department of public safety, and the duties pertaining to it were devolved upon the department of public service, the combined departments to be known as the department of public service and safety. The committee has now settled all parts of the code except those relating to the organization and the sections treating of assessments.

Buckeyes Fared Well.

Norfolk, Oct. 14.—The American Christian convention elected the following officers for the ensuing quadrennial: President, Rev. Oliver W. Powers of Ohio; vice president, Rev. B. S. Batchelor of Massachusetts; secretary, Rev. J. F. Burnett of Indiana; secretary of missions, Rev. J. G. Bishop of Ohio; secretary of education, Rev. M. W. Baker of Ohio; secretary of Sunday schools, Dr. C. A. Tillinghast of Rhode Island; secretary of endeavor department, Rev. Horace Mann of Ohio; secretary department of finance, Rev. John Blood of Pennsylvania; board of missions, Rev. Robert Harris of Indiana, chairman.

Ohioan Dies on a Train.

Marceline, Mo., Oct. 14.—John P. Sullivan, 25, en route from Phoenix, A. T., to his home at Woodstock, O., died in his berth on a Santa Fe passenger train. The body was taken from the train here, prepared for burial and shipped east, accompanied by his young wife.

Caught In the Shafting.

Fremont, O., Oct. 14.—Jacob Billow, employed in the boiler-making department of a local factory, was mangled and killed by being caught in the shafting. His right leg, his head and clothing were torn off, and his brains and bones scattered throughout the shop.

Shot Herself.

Toledo, Oct. 14.—Mrs. Edith Horsey, 32, shot herself through the head with a revolver. In a bloodstained letter found on her body and addressed to her husband, a streetcar conductor, she denied being intimate with a fellow employe of her husband.

No Fuel.

Toledo, Oct. 14.—The Toledo plant of the Republic Iron and Steel company was closed down owing to the fact that the company was unable to secure coal. Several other smaller institutions were compelled to shut down also for the same reason.

Boxer Insane.

Toledo, Oct. 14.—William C. Tate, formerly a well known boxer and referee, was adjudged insane and sent to the asylum here. He refereed the famous Sullivan-Ryan fight.

Methodist Preachers.

Philadelphia, Oct. 14. — The introduction of a resolution by the committee on temperance urging the members of the national association of local preachers of the Methodist church "to separate themselves from all organizations and influences that aid or encourage the license system," provoked a prolonged discussion at the session of the forty-fifth annual meeting of the association, now being held here. Several delegates opposed the resolution on the ground that it was an attempt to influence the convention in favor of Prohibition party to the detriment of the Republican party. The suggestion of politics was repudiated by the supporters of the resolution and it was adopted.

CAUSED BY A BLAST.

Coal Dust Explodes In a Mine With Terrible Effect.

SIX MEN ARE FATALLY MANGLED.

As Many More Receive Painful If Not Dangerous Injuries as a Direct Result of the Accident—Victims Four Thousand Feet From the Scene of the Explosion.

Springfield, Ills., Oct. 14.—In an explosion at Victor mine, Pawnee, 18 miles from this city, two men were killed, four fatally and several others severely injured.

The explosion occurred just before the force of 190 men went off duty, and was caused by too much powder in a blast, the concussion causing coal dust, which thickly overhung the mine, to explode with great force. Some idea of the force of the explosion can be learned from the fact that all those killed and injured were about 4,000 feet from the place where the shot was being fired. Isaacs was hurled against the entry wall with such force that his head was smashed beyond recognition. The company sent to Auburn 10 miles distant, for three doctors. Overcash had been in town but a few days.

The dead are: W. V. Overcash, 30, single; Michael Yorja, 27, single. Fatally injured: Frank Isaacs, 14, breaker boy, dying; Peter Green, head and body crushed; John Burke, frightfully bruised; George Worley, bruised and burned. Others injured were Daniel Reece, John Dick, William Sparling, John Pick, Peter Cerovich, Jerome Sproule, Thomas King, Joseph Buchner, Thomas King and several others.

AFTER A CENTURY

The Famous British Prison Ship Jersey Is Discovered.

New York, Oct. 14.—After lying buried for over a century the famous English prison ship Jersey, in which several hundred Americans were martyred while the British held New York in the days of the revolution, has been accidentally discovered at the Brooklyn navy yard by the workmen who are putting up the launching stays for the battleship Connecticut. Historical associations have been searching for the Jersey for 50 years. The half-burned hull of the ship is lying under 12 or 14 feet of dirt and water, and is in perfect condition.

Strike Broken.

Laredo, Tex., Oct. 14. — The backbone of the strike of the Texas-Mexican and National Railroad of Mexico firemen seems to be broken, as those roads are running out their regular passenger trains without difficulty and have also handled several freight trains. Assistant General Manager Galbraith asserts that all the striking firemen have been discharged. Chairman Olson of the firemen's committee states that the strike is not off.

Macedonian Revolt.

Volo, Greece, Oct. 14.—Twenty-two villages in Macedonia are in complete revolt and half a battalion of Turkish troops has been annihilated by insurgents in the Krezna defile. This news emanates from sources which have hitherto minimized the trouble. The situation, consequently, appears suddenly to have grown worse.

STRICKEN WITH PARALYSIS.

Henderson Grimett, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—George R. McDonald, Man, Logan county, W. Va. Several other remarkable cures of partial paralysis have been effected by the use of this liniment. It is most widely known however, as a cure for rheumatism, sprains and bruises. For sale by C. E. Anderson, Forbes block.

Was at Balaklava.

Salt Lake City, Oct. 14.—James MacLaren, a veteran of the Crimea, died in this city, aged 82 years. MacLaren entered the British army service at the age of 12 as a bugler, and lost a leg in the famous charge of the Light Brigade at Balaklava. He had lived in Utah since 1869, and introduced the first linotype machine in this state.

Cheap Settlers' Rates to the Far West and Northwest.

The Burlington Route will renew the cheap one-way settlers' rates every day during September and October, 1902, to Montana, Idaho, Washington, Oregon and California, such as $30.00 from St. Louis, $33.00 from Chicago, and $25.00 from Missouri River points, to California, Portland and Puget Sound territory, with correspondingly low rates to Spokane District and the Butte-Helena District.

The Burlington Route and its connections best reach the entire West and Northwest country. It is the main traveled road through the West. The map shows.

Cheap Round Trip Tourist Rates to Colorado Utah.

During certain periods of August and September the Burlington will make such remarkably low firstclass round trip rates to Denver, Colorado Springs and Pueblo as $21.00 from St. Louis, $15.00 from the Missouri River and $25.00 from Chicago, good all summer; at other periods only one fare plus $2. Ask nearest ticket agent for details.

Home Seekers' Excursion.

First and third Tuesdays of August, September and October to many sections of the West and Northwest.

Round trip tickets with 21 days' limit.

Consult your nearest ticket agent or write us of your proposed trip and let us advise you the least cost, send you our publications and otherwise assist you.

New British Ambassador.

Washington, Oct. 14.—Sir Michael Herbert, the new British ambassador, was presented to the president by Secretary Hay. The presentation took place at what is called the "Temporary White House" on Jackson place. Felicitous speeches were exchanged. When the ceremony was over Sir Michael, who is a long-time friend of the president, accepted Mr. Roosevelt's invitation to be seated and the two had a long personal chat. The new ambassador will take rank next after Signor Mayor Des Planaches, the Italian ambassador. The foreign embassies now here rank in this order: Germany, France, Russia, Mexico, Italy and Great Britain, with Austria-Hungary next.

RAILROAD IMPROVEMENTS.

The T. W. V. & O. Company will Build a New Trestle.

It is reported upon what is regarded as good authority that the T. W. V. & O. trestle which crosses the two rivers here will be torn down and a new one constructed. The report says that the old trestle has been condemned, the average life of such a trestle being only about ten years The present price of steel being high the company have decided to construct another wooden trestle which it is expected will last until the price of steel goes down. It is said that every part of the old trestle will be torn away and piles will be driven. The work will be commenced in a short time, the contract having been placed and boarding accommodations having been engaged for about 20 men.

A GROWING ENTERPRISE.

The Premium Manufacturing Company Plant on Third Street.

The Premium Manufacturing company is making some extensive changes at their factory on North Third. They are now manufacturing in addition to their other products, a stuffed bassock or footstool for which they find ready sale. They expect to construct a floor in the upper part of the old church building when they are at present occupying thus adding about 2,000 square feet to their floor space. They are also contemplating the construction of a new storage building. A new job press has been installed and new dies so that hereafter everything will be run in a thoroughly up-to-date manner. The number of employes is gradually being increased and the men in charge of the plant are very sanguine as to the future business.

Reading Circle Organization.

BAKERSVILLE, Oct. 10.—The teachers of Adams township met in the grammar school room for the purpose of organizing a reading circle. The following officers were elected: Chairman. W. O. Renner: secretary, S. C. Leech: It was then decided to read the books recommended by the board of county examiners. The following instructors were then appointed by the chairman: Pedagogy, A. M. Bowers; history, S. C. Leech: nature study, M. F. Portz: English, Laverna Cline. Those present were A. M Bower, S. C. Leech, Laverna Cline, M. F. Portz, W. O. Renner and H. H. Deibel. It was then moved that we adjourn and meet Oct. 17. The members of this society extend a cordial invitation to all teachers, who desire to become members, to meet with us at our regular meeting.

HIS LIFE IN PERIL.

"I just seemed to go all to pieces," writes Alfred Bee, of Welfare, Texas, "biliousness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work. They give vigorous health and new life to weak, sickly, run-down people. Try them. Only 50c at C. E. Peasants Strike.

Rome, Oct. 14.—An agricultural strike has broken out in the district of Syracuse, Sicily. The carbineers who were sent to preserve order were received at Giacratana with volleys of stones. They fired their revolvers in the air but this failed to overawe the rioters, who dragged one of the soldiers into a house and killed him The carbineers then endeavored to retreat to their barracks to procure rifles, but they were so closely pressed by the mob that they were compelled to fire their revolvers in self-defense, with the result that two peasants were killed and others were wounded.

Discussed Russian Affairs.

Washington, Oct. 14.—Comte Cassini, the Russian ambassador, spent over an hour with Secretary Hay discussing a number of subjects which are of interest just now concerning this country and Russia, but it was stated that there had been no development in any of them worthy of marking. This was their first meeting since early in the summer. The ambassador has heard nothing to bear out the reports that he is to be transferred from his post at Washington. His departure would be a source of much regret in Washington, where he is very popular.

Germany a Leader.

Washington, Oct. 14.—Germany is the greatest competitor of the United States in the field of electrical engineering, according to a long report made public at the state department from United States Consular Agent Harris at Eibenstock, dated Sept. 1. He says that the German competition shows not only in supplying electrical machinery to the different nations of the world, but also in introducing new inventions in both weak and strong current electrology

A FATAL TRIAL TRIP.

Disaster Befalls a Hungarian Aeronaut and His Man.

BOTH DASHED TO INSTANT DEATH.

High Winds Tore the Car From the Balloon and the Occupants Fell Six Hundred Feet to the Earth—Victim a Wealthy and Prominent Character. Santos Dumont on the Accident.

Paris Oct 14.—This city was shocked by the news of the accident that befell Baron De Brasch and his companion M. Morin who were killed by falling from an airship De Brasch was a Hungarian aged 30 years of age wealthy and owner M. Morin was his engineer

A number of aeronauts started De Brasch and the airship with the start of the trip his wife witnessed his departure with considerable emotion. The ship rose rapidly to an elevation of 600 feet and the engineer was seen below the car and the machine held by ropes rose slowly and easily and maintained its equilibrium. De Brasch was satisfied and said he would maneuver over the drome ground. A southwest wind sprang up suddenly Crossing the main body of the aerial craft executed a number of evolutions but continued northward with the wind eventually disappearing over the great white basilica of the Church of the Sacred Heart and the top of the hill of Mount Matre. The aeronaut's wife and their friends waited for several hours at the shed and grew anxious at the prolonged absence

When the balloon was perceived at an immense height this increased the anxiety as it was known the airship was never intended to rise to such a point. It was, however, merely the inflated silk upon which drifted back across Paris after the accident had relieved it of the weight of the car. A few minutes later a telegram arrived with the news of the disaster

An eye witness gave the following account of the accident. "I was standing on the steps of my building when I heard a voice calling. I looked up and saw an airship a hundred yards in the air. M. Morin was leaning out of the car and asked through a megaphone where was a suitable spot to descend. I indicated a place in the neighborhood and the airship proceeded in that direction. A few seconds later I saw the balloon turned sharply, and at the same moment I heard a noise like the tearing of cloth. The piano wires attaching the front of the car to the balloon had broken. Other wires followed suit, the car became detached, and it fell to the ground 200 yards distant. The balloon itself bounded up in the air and disappeared. I hurried to the spot and found De Bradski dead and terribly bruised. M. Morin was lying under the remainder of the car. He lived but a few moments."

Dumont on the Accident.

Paris, Oct. 14.—An interview was had with Santos-Dumont, the aeronaut, concerning the De Bradski accident. Dumont said he thought the principle of using wires to suspend the car from the envelop, instead of ropes, to be correct, but that De Bradski had not calculated accurately the strength of his wires. M. Santos-Dumont declared that if any one was prepared to offer $50,000 he was ready to sail this year in a new airship from the Bois Du Boulogne, Paris, to Hyde Park, London

There Is No Question About It

It's a Plain Statement of Facts Made by a Coshocton Citizen.

Mrs. J Weatherway of 664 Chestnut St. Coshocton, Ohio, Says:—"As a result of a cold I contracted a severe attack of kidney trouble. I suffered from the effects of it for years. I used Doan's Kidney Pills and Dr. A. W. Chase's Nerve Pills for sale by C. E. Anderson's drug store. It gave me the greatest relief and made the kidneys steady and regular. I gave a few trials to Dr. A. W. Chase's Nerve Pills and found that they were the best remedy for the kidneys. I have ever used. I am glad to recommend them to all who are afflicted with kidney trouble."
